

Alexander Maundrell

Front-End Developer (Junior)

Canada - alex-maundrell.dev - github.com/a-maundrell - info@alex-maundrell.dev

PROFESSIONAL SUMMARY

Self-taught front-end developer with a strong foundation in modern HTML, CSS, JavaScript, and responsive UI development. Experienced in building production-ready personal projects with a focus on clean architecture, accessibility, performance, and maintainability. Comfortable using AI-assisted tools (ChatGPT, GitHub Copilot) responsibly for debugging, refactoring, and learning all while retaining full ownership of code design and implementation. Seeking junior front-end roles and freelance opportunities.

TECHNICAL SKILLS

Languages & Markup

- HTML5, CSS3, JavaScript (ES6+)

JavaScript & Front-end

- DOM Manipulation, Events, Fetch API
- Modular JavaScript, UI State Handling

Tooling & Workflow

- Git & GitHub (branching, commits, pull workflows)
- VS Code, Chrome Dev Tools
- AI-assisted development (ChatGPT, GitHub Copilot) for debugging, optimization, and learning best practices

Styling & Layout

- Responsive Design, Flexbox, CSS Grid
- Custom CSS Architecture, Animations & Transitions
- Bootstrap 5 (Utility based & Custom overrides)

Currently Learning

- [Node.js](https://nodejs.org/) fundamentals (MVC concepts, REST APIs)

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive, multi-page portfolio site showcasing front-end projects
- Implemented modern UI patterns including modals, loaders, animations, and reusable components
- Focused on performance, accessibility, and clean CSS/JS structure
- Deployed with public GitHub and live domain

Interactive JavaScript Projects (Multiple)

- Built a variety of front-end projects using vanilla JavaScript, including UI-driven apps and interactive components
- Applied real-world concepts such as event delegation, async data handling, and state updates
- Emphasized readable code, maintainability, and progressive enhancement

(Additional projects available on GitHub)

PROFESSIONAL DEVELOPMENT

Completed extensive self-directed front-end training through industry-recognized courses, covering:

- Modern JavaScript (fundamentals to advanced concepts)
- HTML & CSS foundations, Flexbox, Grid, and responsive design
- Advanced CSS, animations, and layout systems
- Bootstrap 5 from scratch
- Git & GitHub version control workflows
- Project-based JavaScript development

Currently expanding back-end knowledge with [Node.js](#) fundamentals.

PROFESSIONAL EXPERIENCE

Support Worker / Life Skills Instructor

Community Services - BC, Canada

- Work closely with adults with developmental delays, mental health challenges, and physical disabilities
- Teach practical life skills, problem solving, and adaptive strategies
- Developed strong communication skills, patience, documentation habits, and accountability
- Experience working independently, managing responsibility, and adapting to individual needs

(Transferable skills highly relevant to client communication and teamwork)
